

Ofsted Learner Views

There is a very important survey taking place in late 2017/early 2018 which aims at obtaining feedback from learners about the apprenticeship programme. The first of these surveys is from Ofsted, the government inspection body for schools, colleges and for work-based learning in England. Ofsted has developed a set of online questionnaires to support the Common Inspection Framework. There are three separate Ofsted questionnaires; for apprentices, for parents and carers and for employers.

The online questionnaire for learners may be completed anytime and we really would encourage all employers, educators and assessors to get every apprentice to take part in the survey. Please visit <https://learnerview.ofsted.gov.uk> and follow the online instructions to conduct the short survey.

We look forward to hearing the feedback from your survey; in the meantime, if you would like more information about Ofsted inspections please see the relevant section on the Ofsted website: <http://www.ofsted.gov.uk/further-education-and-skills/>
