

## Unit 201 (CH11) Style and Finish Hair Activity 14

### Sterilisation

Research the different methods of sterilisation for your styling and finishing tools and equipment. You can use textbooks, the Internet and trade magazines to carry out your research.

Once you have identified which tools and equipment can be sterilised using each method, list the benefits and features of each sterilising method in the chart below. The first row of the chart has been completed, as an example.

Sterilisation method	Tools/equipment	Benefits and features
<i>Boiling water</i>	<i>Towels and gowns</i>	<i>Can be done in bulk, cost-effective, etc.</i>
Barbicide		
Ultra-violet cabinet		
Autoclave		
Sterilising sprays or wipes
