

## Unit 209 (CH5) Perm & Neutralise Hair Activity 8

### Step-by-step brick perm winding

Use the step-by-step photos to help you practise brick perm winding. Remember, practice makes perfect!

When you have perfected this technique you will have 45 minutes to carry out a brick perm wind on your client. To help you improve your speed winding, record the start and finish times of three practice attempts in the chart below. This will help you to check your progress.

|            | Date: | Start time: | Finish time: | Total time taken: |
|------------|-------|-------------|--------------|-------------------|
| Attempt 1: |       |             |              |                   |
| Attempt 2: |       |             |              |                   |
| Attempt 3: |       |             |              |                   |
